

THE MASTER MASON TECHNICAL ASSESSMENT PROCESS

STEP ONE

APPLICATION

Applicant completes application form and provides information on:

- NZMTA membership
- Work history
- Supervision structure
- Qualifications
- Complaints history
- Continual Learning Activities

STEP TWO

RISK ASSESSMENT

Information provided on application is verified by Master Mason Assessor.

Referee checks are conducted and a risk assessment is carried out to determine the number of Site Inspection reports required.

STEP THREE

SITE INSPECTIONS

Building work and Site Management is assessed.

STEP FOUR

REGISTRATION

Applicant completes a Master Mason Registration form with copies of all Site Inspection reports.

The Master Mason Assessor speaks with all Site Assessors and recommends registration.
